- **MP.xls**
  - This worksheet contains the major portion prices by month/year and NGPA category.

**ISSUE:**

Major Portion Implementation under existing regulations for the Jicarilla Apache Tribe.

**DESCRIPTION/BACKGROUND:**

On December 6, 1996, representatives of the Jicarilla Apache Tribe (Tribe) and MMS met to discuss the implementation of major portion pricing for the natural gas produced from the Jicarilla Reservation. From July 1, 1975, to June 30, 1995, the Tribe sold gas under royalty-in-kind (RIK) agreements. Until 1989, gas was bought by either the Northwest Pipeline Corporation (Northwest) or the El Paso Natural Gas Company (EPNG) under long-term contracts. In 1989, the Tribe entered into contract settlements with EPNG and Northwest, thus, allowing the companies to pay market prices rather than the Natural Gas Policy Act (NGPA) ceiling prices.

After discussing many different data sources available to perform major portion analysis, the Tribe and RVD concluded that RVD would use sales data provided by the Tribe. This sales data will consist of the MMS lease number, API well number, monthly RIK production volumes and values, Btu content, producing formation(s), the buyer, and pipeline. The RVD will use the Tribal data to calculate median prices for the Jicarilla Reservation.

The RVD will use the Auditing and Financial System (AFS) database to determine prices paid by those payors who paid in-value. The prices paid by the payors who paid in-value will be compared to Tribal data and RVD will issue orders to those payors for any under payments plus interest.

**CURRENT STATUS:**

On January 22, 1997, RVD sent a letter to Mr. Wong listing proposed tasks and a proposed time line for implementation. This was followed by a draft methodology report provided to Mr. Wong at the close of the Indian Oil Valuation meeting on

February 14, 1997. On March 3, 1977 RVD e-mailed a request to Mr. Wong for a set of sample data in order to develop a data processing procedure. On April 4, a project review letter was sent to Mr. Wong reviewing all dates and offering any assistance needed. As of April 28, no data has received.

A:\BRIEF.FRM

**ISSUE:**

Implementation of major portion pricing under existing regulations for natural gas produced from the Jicarilla Apache Tribal leases.

**DESCRIPTION/BACKGROUND:**

On December 6, 1996, representatives of the Jicarilla Apache Tribe (Tribe) and MMS met to discuss the implementation of major portion pricing for the natural gas produced from the Jicarilla Apache Indian Reservation. From July 1, 1975, to June 30, 1995, the Tribe sold gas under royalty-in-kind (RIK) agreements. Until 1989, gas was bought by either the Northwest Pipeline Corporation (Northwest) or the El Paso Natural Gas Company (EPNG) under long-term contracts. In 1989, the Tribe entered into contract settlements with EPNG and Northwest, thus, allowing the companies to pay market prices rather than the Natural Gas Policy Act (NGPA) ceiling prices.

After discussing many different data sources available to perform major portion analysis, the Tribe and the Royalty Valuation Division (RVD) concluded that RVD would use RIK sales data provided by the Tribe. This sales data will consist of the MMS lease number, API well number, monthly RIK production volumes and values, Btu content, producing formation(s), the buyer, and pipeline. The RVD will use the Tribal data to calculate median prices for the Jicarilla Apache Indian Reservation.

The RVD will use the Auditing and Financial System (AFS) database to determine prices paid by those payors who paid in-value. The prices paid by the payors who paid in-value will be compared to Tribal data and RVD will issue orders to those payors for any under payments plus interest.

**CURRENT STATUS:**

On January 22, 1997, RVD sent a letter to the Tribe listing proposed tasks and a proposed time line for implementation. This was followed by a draft methodology

report provided to the Tribe at the close of the Indian Oil Valuation meeting on February 14, 1997. On March 3, 1997, RVD e-mailed a request to the Tribe for a set of sample data in order to develop a data processing procedure. On April 4, a project review letter was sent to the Tribe reviewing all dates and offering any assistance needed. As of April 30, 1997, RVD has not received any data.

Mr. David Wong  
Tribal Accountant  
c/o Minerals Management Service  
Dallas Compliance Division  
8828 Stemmons Freeway, Suite 410  
Dallas, Texas 75247

Dear Mr. Wong:

As agreed at the May 28, 1997, meeting in Dallas, Texas, the Royalty Valuation Division (RVD) of the Minerals Management Service has performed a major portion analysis for the time period January 1984 through June 1995 for the Jicarilla Apache Indian Reservation (Reservation). RVD's methodology for the major portion analysis includes using Jicarilla Apache Tribal royalty-in-kind sales and contract data to calculate a major portion value for each month for all Tribal leases on the Reservation. Please refer to the Methodology for Major Portion and Dual Accounting Analysis, Jicarilla Apache Tribal Leases (Methodology Report), Enclosure 1, for the details of the methodology. Enclosed for your review is also a copy of the Order to Perform for Major Portion and Dual Accounting (Order), Enclosure 2.

Please strike out any information in the Methodology Report, Order, and enclosures that you believe is proprietary data and thus **not releasable** under Freedom of Information Act (FOIA) requests. Please return the amended versions to us and we will incorporate these changes and develop a revised Methodology Report that will contain only information that can be released.

Please sign below in confirmation of your agreement to this Methodology Report and the Order for the time period January 1984 through June 1995. We will begin issuing Orders to notify companies of their major portion and dual accounting liabilities after the following steps have been completed:

1. RVD receives a signed copy of this letter confirming the Jicarilla Apache Tribe's agreement to the Methodology Report and the Order, and
2. RVD has revised the Methodology Report and obtained your approval of the revised Methodology Report for release under the FOIA .

Mr. David Wong

2

If you have any questions concerning this project or if you would like to meet to discuss this issue further, please contact Mr. Joseph Cornellisson at (303) 275-7239. Thank you for your cooperation.

Sincerely,

Deborah Gibbs Tschudy  
Chief, Royalty Valuation Division

Mr. David Wong  
Tribal Accountant  
c/o Minerals Management Service  
Dallas Compliance Division  
8828 Stemmons Freeway, Suite 410  
Dallas, Texas 75247

Dear Mr. Wong:

As agreed at the May 28, 1997, meeting in Dallas, Texas, the Royalty Valuation Division (RVD) of the Minerals Management Service (MMS) has performed a major portion analysis for the time period January 1984 through June 1995 for the Jicarilla Apache Indian Reservation (Reservation). RVD's methodology for the major portion analysis includes using Jicarilla Apache Tribal royalty-in-kind sales and contract data to calculate a major portion value for each month for all Tribal leases on the Reservation. Please refer to the Methodology for Major Portion and Dual Accounting Analysis, Jicarilla Apache Tribal Leases (Methodology Report), Enclosure 1, for the details of the methodology. Enclosed for your review is also a copy of the Order to Perform for Major Portion and Dual Accounting (Order), Enclosure 2.

The Methodology Report and Order have been revised as discussed at the January 12, 1998, meeting in Albuquerque, New Mexico, between representatives of the Jicarilla Apache Tribe and MMS. The Methodology Report has been amended to exclude information that is not releasable under Freedom of Information Act (FOIA) requests. Please review the amended Methodology Report and Order and verify that all changes have been made to your satisfaction and that the revised Methodology Report contains only information that can be released under FOIA.

Please sign below in confirmation of your agreement to this Methodology Report and the Order for the time period January 1984 through June 1995. We will begin issuing Orders to notify companies of their major portion and dual accounting liabilities after RVD receives the original, signed copy of this letter confirming the Jicarilla Apache Tribe's agreement to the Methodology Report and the Order.

Mr. David Wong

Tribal Accountant  
c/o Minerals Management Service  
Dallas Compliance Division  
8828 Stemmons Freeway, Suite 410  
Dallas, Texas 75247

Dear Mr. Wong:

Thank you for meeting with us in Albuquerque on January 12, 1998, to discuss the major portion analysis and dual accounting orders for the Jicarilla Apache Tribal leases. At that meeting, the Royalty Valuation Division (RVD) agreed to follow up on some action items. The purpose of this letter is to give you an update on the status of each of these action items.

The following is a list of RVD's action items and the current status as well as the action items that the Tribe agreed to pursue:

1. Revise the Methodology Report.
  - RVD revised Attachment 1 to reflect that the tax rates covered by several of the identified periods.
  - RVD deleted Attachment 2 from the Methodology Report, deleted references to the attachment on pages 3, and deleted a paragraph on page 5 discussing the information provided in Attachment 2.
2. Modify the Order to Perform
  - RVD modified the dual accounting spreadsheets and created a spreadsheet for theoretical dual accounting and another spreadsheet for leases that have actual data.
  - RVD added the following lease cancellation language on page 7:

"Furthermore, failure to comply can also result in lease cancellation as provided for in 30 CFR § 241.20 (b) and 25 CFR 211.20."

The regulation at 30 CFR § 241.21(b) states:

Failure by the lessee, operator, revenue payor, or other authorized person, or party to complete the necessary remedial action within the time and in the manner prescribed by the notice may subject lease to cancellation

proceedings pursuant to . . . or provisions of 25 CFR for Indian leases.

The regulation at 25 CFR § 211.20 states:

Failure of the lessee to comply with any provision of the lease, of the operating regulations, of the regulations in this part, order of the superintendent or his representative, shall subject the lease to cancellation by the Secretary of the Interior or the lessee to a penalty of not more than \$500 per day for each and every day the terms of the lease, the regulations, or such orders are violated; or to both such penalty and cancellation.

- RVD modified pages 4 and 5 regarding the sales to affiliate language. The new language states:

The **first** arm's-length sale may be considered in determining the gross proceeds value. MMS may examine transactions by sales of affiliates in order to determine gross proceeds or the appropriate benchmark value."
- RVD clarified the language in the Order on pages 4 and 5 regarding transportation and processing allowances in the calculation descriptions. The new language states: "Less the reasonable actual costs of transporting /or processing."
- RVD modified the references to condensate valuation on pages 4 and 5 of the Order. The new language states:

"The value of the condensate as determined under 30 CFR § 206.52.
- RVD added the following new language regarding maximum lawful prices on page 7:

Please identify and clearly document with copies of contracts or lease settlement statements, any differences you feel are not valid such as a major portion price that is greater than the maximum lawful price you received under an arm's-length contract.
- RVD modified the language concerning previous dual accounting order(s) on page 7. The Order now states:

If you received a previous order to perform dual accounting on Jicarilla leases, this Order modifies the previous order to the extent of the prices used in the dual accounting calculations and/or the time period involved. However, if you have previously appealed the requirement of dual

accounting, you cannot appeal the issue of dual accounting again to MMS.

3. Develop a standard response to payors.

RVD will develop a standard response to payors to answer questions concerning settlements. Payors will be informed that (1) they must contact Office of Enforcement and the Tribe if they want to settle and (2) the Tribe may consider accepting the proposed Indian Gas Regulation formula pricing (i.e., the percent bump procedure) in lieu of the actual dual accounting calculations.

4. Coordinate with the Freedom of Information Office Act (FOIA) Office.

RVD coordinated with the FOIA Office regarding the release of data used in the methodology report, the order to perform, and the settlement agreements.

- By E-mail message dated January 9, 1998 to the Tribe, Greg Kann of the FOIA Office reported on the proprietary data issues involved in the major portion/dual accounting project records. The Tribe should coordinate with the FOIA Office to determine what data is releasable under FOIA requests.
- The reference to the ten year time limit is at 43 CFR § 2.15(d)(4)(vii) and applies only to information received more than ten years ago. Furthermore, the such information may still be held confidential. Therefore, this regulation is not applicable to the Jicarilla Tribe situation.
- MMS will not develop a confidentiality and non-disclosure agreement that will allow the release of limited amount of proprietary and commercially sensitive information used in support of the major portion calculation. Current regulations do not give the Agency authority to enter into confidentiality agreements with 3rd parties.

6. Maintain the language for staying the Order.

RVD will maintain the language in the Order regarding staying the Order. The Orders will not be stayed.

7. Investigate the administrative appeals process .

The Tribe will investigate the administrative process regarding whether or not the Assistant Secretary of the Bureau of Indian Affairs (BIA) will agree to sign the appeals. If the Assistant Secretary agrees to sign the appeal then RVD will issue all orders simultaneously. If the Assistant Secretary does not agree then RVD will issue the orders in several groups.

Mr. David Wong

4

8. Obtain concurrence on the irrevocable harm issue.

The Tribe will obtain concurrence on the irrevocable harm issue from the Bureau of Indian Affairs.

9. Provide written concurrence on the Methodology Report and the Order.

The Tribe will provide written concurrence on the Methodology Report and the Order to Perform prior to issuance. This concurrence will include agreement on a revised Methodology Report that will be releasable under FOIA.

RVD will begin issuing Orders to notify companies of their major portion and dual accounting liabilities after the following steps have been completed:

1. RVD receives a signed copy of this letter confirming the Jicarilla Apache Tribe's agreement to the Methodology Report and the Order, and
2. RVD has revised the Methodology Report in accordance with the Tribe's instructions and obtain your approval of the revised Methodology Report for release under the FOIA .
3. The Administrative Appeals Process is clarified with the Assistant Secretary's position.

If you have any questions concerning this project or if you would like to meet to discuss this issue further, please contact Mr. Joseph Cornellison at (303) 275-7239. Thank you for your cooperation.

Sincerely,

Deborah Gibbs Tschudy  
Chief, Royalty Valuation Division

Mr. David Wong  
Director of Revenue and Taxation  
Jicarilla Apache Tribe  
P.O. Box 950  
Dulce, New Mexico 87528

Dear Mr. Wong:

Thank you for meeting with us in Albuquerque on January 12, 1998, to discuss the major portion analysis and dual accounting orders for the Jicarilla Apache Tribal leases. At that meeting, the Royalty Valuation Division (RVD) agreed to follow up on some action items. The purpose of this letter is to give you an update on the status of each of these action items.

The following is a list of RVD's action items and the current status as well as the action items that the Jicarilla Apache Tribe (Tribe) agreed to pursue:

1. *Revise the Methodology Report.*

- RVD revised the footnotes to Attachment 1 to show the time periods for the tax reimbursement rates.
- RVD deleted Attachment 2 from the Methodology Report, references to the attachment on page 3, and a paragraph on page 5 discussing the information provided in Attachment 2.

2. Modify the Order to Perform.

- RVD modified the dual accounting spreadsheets and created a spreadsheet for theoretical dual accounting and another spreadsheet for lessees that have actual data (Enclosure 1).
- RVD added the following lease cancellation language on page 7:

Furthermore, failure to comply can also result in lease cancellation as provided for in 30 CFR § 241.20(b) (1997) and 25 CFR § 211.22 (1997).

The regulation at 30 CFR § 241.20(b) states:

Failure by the lessee, operator, revenue payor, or other authorized person, or party to complete the necessary remedial action within the time and in the manner prescribed by the notice may subject lease to cancellation proceedings pursuant to . . . or provisions of 25 CFR for Indian leases.

The regulation at 25 CFR § 211.22 states:

Failure of the lessee to comply with any provision of the lease, of the operating regulations, of the regulations in this part, order of the superintendent or his representative, or of the orders of the supervisor or his representative, shall subject the lease to cancellation by the Secretary of the Interior or the lessee to a penalty of not more than \$500 per day for each and every day the terms of the lease, the regulations, or such orders are violated; or to both such penalty and cancellation.

- RVD modified pages 4 and 5 regarding the sales to affiliate language. The new language states:

The arm's-length sale, by the affiliate, may be considered in determining the gross proceeds value. MMS may examine sales by affiliates in order to determine gross proceeds or the appropriate benchmark value.

- RVD clarified the language in the Order on pages 4 and 5 regarding transportation and processing allowances in the calculation descriptions. The new language states:

Less a deduction for the reasonable actual costs incurred for transportation and/or processing.

- RVD modified the references to condensate valuation on page 5 of the Order. The new language states:

The value of the condensate as determined under 30 CFR § 206.52 (1997).

- RVD added the following new language regarding maximum lawful prices on page 7:

Please identify and clearly document with copies of contracts or lease settlement statements, any differences you feel are not valid such as a major portion price that is greater than the maximum lawful price you received under an arm's-length contract.

- RVD modified the language concerning previous dual accounting order(s) on page 7. The Order now states:

If you received a previous order to perform dual accounting on Jicarilla leases, this Order modifies the previous order regarding the prices used in the dual accounting calculations and/or the time period involved. However, if you have previously appealed the requirement of dual accounting, you cannot appeal the issue of dual accounting again to MMS.

3. Develop a standard response to payors.

RVD will develop a standard response to payors to answer questions concerning negotiated settlement of these orders. Payors will be informed that (1) they must contact the Office of Enforcement and the Tribe if they want to settle dual accounting, and (2) the Tribe may consider accepting the proposed Indian Gas Valuation Regulation formula pricing (i.e., the percent bump procedure) in lieu of the actual dual accounting calculations.

4. Coordinate with the Freedom of Information Office Act (FOIA) Office.

RVD coordinated with the FOIA Office regarding the release of data used in the methodology report, the order to perform, and the settlement agreements.

- By E-mail message dated January 9, 1998, to the Tribe, the Royalty Management Program FOIA Coordinator provided guidance on the proprietary data issues involved in the major portion/dual accounting project records. The Tribe should coordinate with the FOIA Office to determine what data is releasable under FOIA requests.
- The reference to the 10-year time limit is located at 43 CFR § 2.15(d)(4)(vii) (1997) and applies only to information received more than 10 years ago. Furthermore, such information may still be held confidential. Therefore, this regulation is not applicable to the Tribe's situation.
- Minerals Management Service will not develop a confidentiality and non-disclosure agreement that will allow the release of limited amount of proprietary and commercially sensitive information used in support of the major portion calculation. Current regulations at 43 CFR § 2.13(c) (1997) do not give the Agency authority to enter into confidentiality agreements with third parties.

5. *Maintain the language for staying the Order.*

RVD will maintain the language in the Order regarding staying the Order. Orders will not be stayed.

6. *Investigate the administrative appeals process.*

Tribe will investigate the administrative process regarding whether or not the Assistant Secretary of Indian Affairs will agree to sign the appeals.

7. *Provide written concurrence on the Methodology Report and the Order to Perform.*

Tribe will provide written concurrence on the Methodology Report and the Order to Perform prior to issuance. *This concurrence will include agreement on a revised Methodology Report that will be releasable under FOIA.*

RVD will begin issuing Orders to notify companies of their major portion and dual accounting liabilities after the following steps have been completed:

- A. RVD has revised the Methodology Report in accordance with the Tribe's instructions and obtained your approval of the revised Methodology Report for release under the FOIA.

B. RVD receives written concurrence confirming the Tribe's agreement to the Methodology Report and the Order to Perform.

If you have any questions concerning this project or if you would like to meet to discuss this issue further, please contact Mr. Joseph Cornellisson at (303) 275-7239. Thank you for your cooperation.

Sincerely,

Deborah Gibbs Tschudy

**METHODOLOGY FOR MAJOR PORTION  
AND DUAL ACCOUNTING ANALYSIS  
JICARILLA APACHE TRIBAL LEASES**

**Purpose**

The purpose of this report is to provide a background and to discuss the results of major portion and dual accounting analyses recently undertaken by the Royalty Valuation Division (RVD), Royalty Management Program (RMP), Minerals Management Service (MMS), for natural gas produced from Jicarilla Apache Tribal leases.

**Background**

On December 6, 1996, representatives of the Jicarilla Apache Tribe MMS met to discuss the implementation of major portion pricing for the natural gas produced from the Jicarilla Reservation (Reservation). From the mid-1970's to the mid-1990's, the Jicarilla Apache Tribe sold gas under royalty-in-kind (RIK) agreements. During most of this time the gas was purchased under long-term contracts. Before the expiration of the agreements, the Jicarilla Apache Tribe entered into contract renegotiations to allow the purchasing companies to pay market prices rather than the Natural Gas Policy Act (NGPA) maximum lawful prices.

On May 28, 1997, representatives of the Jicarilla Apache Tribe and MMS met in Dallas, Texas, to discuss the implementation of the major portion and dual accounting analyses. MMS presented a proposal to the Jicarilla Apache Tribe that recommended MMS would issue an Order to Perform for Major Portion and Dual Accounting (Order) to perform major portion analysis based on Jicarilla Apache Tribe RIK prices for each NGPA category. The Jicarilla Apache Tribe concurred with this approach. The Jicarilla Apache Tribe also concurred that the Orders should also include dual accounting.

On June 17 and October 8, 1997, representatives of the Jicarilla Apache Tribe and MMS met to review the contracts, sources of data, pricing data, and the major portion/dual accounting Order to perform. On January 12, 1998, representatives of the Jicarilla Apache Tribe and MMS met to review this draft Methodology for Major Portion and Dual Accounting Analysis Jicarilla Apache Tribal Leases (Methodology Report) and the draft Order.

**Regulatory Criteria**

The oil and gas valuation regulations found at 30 CFR 206 (1987), have long required that

the

**"estimated reasonable value" of production be used for the purposes of computing royalties. Due consideration is given to the highest price paid for a part or for a major portion of gas of like quality in the same field, to the price received by the lessee, to posted prices, and to other relevant matters. Title 25-CFR 211 (1997) (Indian Tribal) and the terms of the Jicarilla Apache Tribe leases also specify that the value may, at the discretion of the Secretary of the Interior, be calculated on the basis of the highest price paid or offered at the time of production for the major portion of gas and/or natural gasoline and/or all other hydrocarbon substances produced and sold from the field where the leased lands are located.**

**The amended valuation regulations at 30 CFR §§ 206.172(a)(3)(i) and 206.173(a)(3)(i) (1997) for Indian leases provide:**

**For any Indian leases which provide that the Secretary may consider the highest price paid or offered for a major portion of production (major portion) in determining value of production for royalty purposes, if data are available to compute a major portion MMS will, where practicable, compare the value determined in accordance with this section with the major portion. The value to be used in determining the value of production for royalty purposes shall be the higher of those two values.**

**For natural gas, these regulations specify that a major portion price is calculated for like-quality gas in the same field (or, if necessary, to obtain a reasonable sample from the same area). Like-quality gas is gas of similar physical, chemical, and legal characteristics. Legal characteristics are generally the applicable NGPA category or subcategory.**

**Dual accounting requirements are specified by Indian lease terms, regulations, and MMS instructions. Dual accounting is defined as a valuation method that compares the value of the gas prior to processing, as determined under 30 CFR § 206.172 (1997), to the value of that same gas after processing (the combined values of the residue gas and gas plant products), as determined under 30 CFR § 206.173 (1997). Where the specific provisions of a lease are inconsistent with these regulations, the lease agreement shall govern to the extent of that inconsistency.**

#### **Major Portion Methodology**

**Under the agreement reached between MMS and Jicarilla Apache Tribal representatives, the major portion methodology identifies the prices paid under RIK contracts and RIK renegotiated agreements and calculates the major portion by NGPA category for all gas production in the Reservation utilizing RIK data for the time period January 1984 through June 1995. RVD and the Jicarilla Apache Tribe agreed to the following key issues at the**

December 6, 1996, and June 17, 1997, meetings:

- RVD will consider the Reservation as the "area" for calculating the major portion pricing.
- The price received for the RIK portion of the gas represents the one-eighth and/or one-sixth royalty share. RVD will extrapolate the royalty share to the entire eight-eighths and/or six-sixths sales volume and assume the value for the royalty share is representative of the prices received for the other portion of the gas sold from the Reservation.
- RVD will analyze samples of Jicarilla Apache Tribe monthly settlement statements and certify that the Jicarilla Apache Tribe received the proper NGPA prices.
- RVD will send an Order to perform major portion and dual accounting to the non-RIK payors only.

#### The NGPA Category

RVD identified gas values by NGPA category by month from January 1984 through June 1995. In the Orders sent to the non-RIK payors, RVD provided major portion prices by NGPA category and requested that the payor identify the NGPA category of their gas, the time periods, and the lease(s) for which the company was a payor between January 1984 and June 1995.

RVD based the January 1984 through December 1986 and July 1988 through December 1988 major portion prices on the published NGPA prices plus tax reimbursements received by the Jicarilla Apache Tribe. These prices are shown in Attachment 1 by NGPA category for each month/year. The NGPA categories identified are as follows:

102 New natural gas	103 New onshore production
104 Post - 1974 gas	104 1973-1974 Biennium gas
104 Replacement gas	104 Flowing gas
104 Rocky Mountain gas	105 Existing intrastate gas
108 Stripper gas	109 Other gas

RVD based the January 1987 through June 1988 major portion prices on a weighted-average price received by the Jicarilla Apache Tribe resulting from a negotiated temporary price reduction between the Jicarilla Apache Tribe and the gas purchasers. Starting in January 1989, the major portion prices are based on the prices received under the Jicarilla Apache Tribe RIK renegotiated contract and contract settlements. The prices are shown in Attachment 1 by NGPA category for each month/year.

### Definition of Field or Area

The majority of the Reservation is within Rio Arriba County, New Mexico, with a small portion extending into Sandoval County, New Mexico. The Reservation lies along the eastern edge of the San Juan Basin. Gas production is from the Pictured Cliffs Formation, Mesaverde Group, Gallup, Tocito, and fractured Mancos Formations, and the Dakota and Dakota-Morrison Formations. The Fruitland Formation produces methane primarily from coals (Fruitland Coal). The regulations at 30 CFR §§ 206.172(a)(3)(ii) and 206.173(a)(3)(ii)(1997) state that major portion will be calculated on "like-quality gas sold under arm's-length contracts from the same field (or, if necessary, to obtain a reasonable sample, from the same area)." However, the State of New Mexico utilizes pools rather than field definitions. A pool is a "common source of supply" and is generally based on a geologic horizon. The State of New Mexico Oil and Gas Commission defines 30 pools that overlay or are within the Reservation boundary. In several cases, several pools overlay one another and/or extend well outside the Reservation boundary. Consequently, we are unable to define distinct field boundaries for Jicarilla Apache Tribe gas production. Therefore, for this study, the Reservation boundary will be defined as the area. During the June 17, 1997, meeting between MMS and the Jicarilla Apache Tribe, the Jicarilla Apache Tribe representative agreed to use the Reservation boundary as the major portion area.

### Calculation of Major Portion Values

The major portion calculation has been divided into four time periods :

- Period 1: NGPA pricing was in effect for the sales contracts.
- Period 2: The purchasers negotiated temporary price reductions from the NGPA prices.
- Period 3: NGPA pricing was in effect for the sales contracts.
- Period 4: The contracts were renegotiated. Due to different effective dates, NGPA pricing was also in effect for several months.

The time periods and effective prices are shown in Table 1. Tax reimbursement information was obtained from the Jicarilla Apache Tribe tax manual as shown in Table 2.

**TABLE 1**  
**Natural Gas Pricing Variations**

Period	Time Period	Price
1	January 1984 - December	NGPA & Tax Reimbursement

	1986	
2	January 1987 - June 1988	NGPA & Tax Reimbursement; Temporary Price Reduction
3	July 1988 - December 1988	NGPA & Tax Reimbursement
4	January 1989 - June 1995	NGPA & Tax Reimbursement; Renegotiated Prices

Major portion prices were calculated using the prices received under the Jicarilla Apache Tribal RIK contracts and are shown in Attachment 1. For periods 1 and 3, the major portion prices are the sum of the published NGPA prices and the tax reimbursements. The prices received by the Jicarilla Apache Tribe during Period 2 (the price reduction period) and Period 4 (the renegotiated price period) are calculated as discussed below.

**TABLE 2**  
**Jicarilla Tax Rates**

Date	Severance Tax (Per MMBtu)	Privilege Tax (87.5% of Value)
1/1/84 through 5/30/85	\$0.05	
6/1/85 through 1/31/86	\$0.05	5.00%
2/1/86 through 1/31/87	\$0.05	5.18%
2/1/87 through 1/31/88	\$0.05	5.28%
2/1/88 through 12/31/88	\$0.05	5.47%

During the temporary price reduction period (Period 2), RVD calculated a weighted-average price received for each NGPA category by multiplying the contract price times the RIK reserve volume estimate and dividing the total contract values by the total volume estimate (Attachment 2).

Table 1 of Attachment 2 shows an example of this calculation using simulated values. The actual reserve estimates and contract prices cannot be released in Order to protect the confidential commercial and financial information of the Jicarilla Apache Tribe and their purchasers. Table 2 of Attachment 2 shows the results of the actual calculations by NGPA category.

**For Period 4, major portion prices were calculated by allocating the sales proceeds by NGPA category to the actual prices received under the modified contracts to determine the total consideration received under the RIK contract for each NGPA category. Documents provided in support of the RIK contract settlements proceeds provided detailed information on the monies received for each NGPA category. These amounts were used to calculate the major portion prices by category. The amounts due to the Jicarilla Apache Tribe for the renegotiated contracts were based on volumetric decline curve analysis of the estimated reserves of the wells.**

The contract adjustments were based on the difference between the projected NGPA prices due under the original contract and the renegotiated prices. **Tables 1 and 2 of Attachment 3 show examples of this calculation using simulated values. The actual reserve estimates and contract prices cannot be released in Order to protect the confidential commercial and financial information of the Jicarilla Apache Tribe and their purchasers.** Based on the projected NGPA prices and volumetric analysis, an annual present value estimate of the remaining reserves was calculated (Column B) as shown on Attachment 3, Tables 1 and 2. This value was then discounted using a 10 percent discount rate (Column C). This settlement value was further reduced during negotiations between the Jicarilla Apache Tribe and the companies. A settlement factor was calculated by dividing the total actual settlement amount by the estimated settlement value. This factor was then applied to the discounted amounts to determine a total annual settlement value (Column D). The annual settlement value was then divided by the annual present value estimate to generate a settlement discount factor (Column E). A price differential (Column H) was calculated between the projected NGPA price (Column G) and the renegotiated price (Column F). This differential represents the difference between the original contract price minus the renegotiated price. The undiscounted value was then discounted using the settlement discount factor discussed above to generate a settled price differential (Column I). This differential was then added to the re-negotiated price to determine the major portion price (Column J) by category.

**RVD then calculated a weighted-average price using the example calculations. This price was calculated by multiplying the appropriate renegotiated contract price received for each NGPA category by the appropriate reserve volume and dividing both calculated values by the total volume (Attachment 3, Table 3).**

**The major portion prices shown in Attachment 1 for 1989 through 1995 are calculated with this methodology and the actual reserve and contract prices.**

#### **Dual Accounting Calculation**

Dual accounting requirements are specified by Indian lease terms and regulations found at 25 CFR § 211.13(a) (1997) which state:

In determining the value for royalty purposes of products, such as natural

gasoline, that are derived from treatment of gas, a reasonable allowance for the cost of manufacture shall be made, such allowance to be two-thirds of the value of the marketable product unless otherwise determined by the Secretary of the Interior on application of the lessee or on his own initiative, and that royalty will be computed on the value of gas or casinghead gas, or on the products thereof (such as residue gas, natural gasoline, propane, butane, etc.), whichever is the greater. [Emphasis added.]

Dual accounting is defined as a valuation method that requires the lessee to compute royalties based on the greater of: (1) the value of the gas prior to processing (as determined under 30 CFR § 206.172 (1997)), or (2) the combined value of the residue gas and gas plant products resulting from processing the gas (as determined under 30 CFR § 206.173 (1997)), plus the value of any condensate recovered downstream of the point of royalty settlement without resorting to processing (30 CFR § 206.52 (1997)). However, the value of production can never be less than the gross proceeds accruing to the lessee (30 CFR §§ 206.172(h) and 206.173(h) (1997)). After March 1, 1988, if royalties are paid pursuant to the processed gas valuation method, the requirements to submit appropriate allowance forms prior to claiming transportation and/or processing allowances must be met (30 CFR §§ 206.176 through 206.179 (1997)).

**RVD reviewed the responses to the September 29, 1995, Dear Payor letter and issued Orders to perform dual accounting and pay royalties on major portion prices.<sup>1</sup> For those companies who stated that they performed dual accounting, RVD compared prices paid by the payors who paid in-value to the calculated major portion prices to determine whether Orders should be issued. RVD issued Orders to those payors who paid in value (Attachment 4) and required payments on the higher of the gross proceeds or the major portion price.**

The Order to perform requires the calculations for natural gas liquids (NGL's) to be based on the higher of the gross proceeds received for the NGL's or comparable contract price. RVD reviewed contracts for the sales of NGL's in the San Juan Basin to obtain comparable contract prices. Under these contracts, the referenced prices for NGL's was the Mt. Belvieu, Texas, spot prices. Thus, RVD determined that a comparable contract price for NGL's for the Reservation was the average Mt. Belvieu spot market price. The Orders will require the calculations for NGL's to be based on the higher of the gross proceeds received for the NGL's or the average Mt. Belvieu spot market price (Attachment 5).

#### **Conclusion**

**Our review of the major portion values calculated from the data reported to the Jicarilla Apache Tribe on the RIK purchase statements shows that they are reasonable prices paid for a major portion of like-quality production sold from the Reservation. The use of these major portion values enforces the major portion price requirements found in the lease terms and upholds our trust responsibility to the Jicarilla Apache Tribe.**

---

<sup>1</sup>**The Orders cite the requirement that royalty be based on the higher of the major portion value or gross proceeds accruing to the lessee as well as the requirement to perform dual accounting. Sales by affiliates may provide information concerning gross proceeds to the lessee and the appropriate benchmark value and thus may be considered in determining royalty values.**

**RVD sent Orders to 39 companies (Attachment 4)**

## ORDER TO PERFORM

Dear :

In carrying out the trust responsibility of the United States in the administration of Indian oil and gas leases, the Minerals Management Service (MMS) has long recognized the primacy of the lease terms. As a royalty payor on Jicarilla Apache Tribal leases, you are obligated to comply with Section 3(c) **Rental and royalty**, of the Indian lease terms. More specifically, the regulations state that a major portion analysis for oil and gas and dual accounting for gas (accounting for comparison) must be performed in determining the value of production for royalty purposes. (Where the specific provisions of a lease are inconsistent with these regulations, then the lease agreement shall govern to the extent of that inconsistency.)

For major portion, regulations (25 CFR § 211.13(a) (1996)) state:

During the period of supervision, "value" for the purposes of the lease may, in the discretion of the Secretary of the Interior, be calculated on the basis of the highest price paid or offered (whether calculated on the basis of short or actual volume) at the time of production for the major portion of the oil of the same gravity, and gas, and/or natural gasoline, and/or all other hydrocarbon substances produced and sold from the field where the leased lands are situated, and the actual volume of the marketable product less the content of foreign substances as determined by the supervisor.

This requirement is also embodied in the gas valuation regulations found at 30 CFR §§ 206.172 and 206.173 (1996).

Dual accounting requirements are specified by Indian lease terms and regulations found at 25 CFR § 211.13 (1996) which state:

In determining the value for royalty purposes of products, such as natural gasoline, that are derived from treatment of gas, a reasonable allowance for the cost of manufacture shall be made, such allowance to be two-thirds of the value of the marketable product unless otherwise determined by the Secretary of the Interior on application of the lessee or on his own initiative, and that royalty will be computed on the value of gas or casinghead gas, or on the products thereof (such as residue gas, natural gasoline, propane, butane, etc.), whichever is the greater. [Emphasis added.]

Dual accounting is defined as a valuation method that requires the lessee to compute royalties based on the greater of: (1) the value of the gas prior to processing (as determined under 30 CFR § 206.172), or (2) the combined value of the residue gas and gas plant products resulting from processing the gas (as determined under 30 CFR § 206.173), plus the value of any condensate recovered downstream of the point of royalty settlement without resorting to processing (30 CFR § 206.52 (1996)). However, the value of production can never be less than the gross proceeds accruing to the lessee (30 CFR §§ 206.172(h) and 206.173(h) (1996)). After March 1, 1988, if royalties are paid pursuant to the processed gas valuation method, the requirements to submit appropriate allowance forms prior to claiming transportation and/or processing allowances must be met. (See 30 CFR §§ 206.176 through 206.179 (1996)).

#### Major Portion

MMS has performed major portion analyses for natural gas production from Jicarilla Apache Tribal leases for the period **January 1984 through June 1995**. We have verified gas sales data reported by the Jicarilla Apache Tribe under their Royalty-in-Kind (RIK) program and used this data to determine major portion prices for the Jicarilla Apache Tribe Reservation (Reservation) by production month. We have determined that the Jicarilla Apache Tribe sold all of their RIK production based on the prices as set by the Natural Gas Policy Act (NGPA) in the following categories:

gas	102 New natural gas	103 New onshore production	104 Post-1974
	104 1973-1974 Biennium gas		
	104 Replacement gas	104 Flowing gas	
	104 Rocky Mountain gas	105 Existing intrastate gas	
	108 Stripper gas	109 Other gas	

Enclosure 1 lists major portion prices. These prices are based on the prices received under the Jicarilla Apache Tribal RIK contract and are shown by NGPA category by month/year. If you are not responsible for payment of royalties between January 1984 and June 1995, please identify the responsible party and the date your responsibility ended.

*NOTE: The following section entitled Dual Accounting pertains to both those payors that stated they did or did not perform dual accounting. The final letter will be modified for each payor.*

Dual Accounting (Did Perform)

By "Dear Payor" letters dated September 30, 1988; July 27, 1992; February 2, 1993; and February 10, 1995 (Enclosures 2-5), MMS emphasized the requirement to perform dual accounting with notice that failure to comply with Indian lease terms and the regulations applicable to dual accounting would subject payors to enforcement actions by MMS, including civil penalties as provided by 30 CFR § 241.51 (1996).

MMS has determined that the Jicarilla Apache Tribal lease terms require dual accounting (Section 3(c) entitled "Rental and Royalty"). MMS issued an Order (September 29, 1995 (Enclosure 6)) to (*Short company name*) to provide a declaration of policy on dual accounting. On your response, you stated that the company did perform dual accounting on the Indian leases for which (*Short company name*) is a royalty payor. A review of sample months show that your dual accounting calculations were based on prices less than major portion prices shown in Enclosure 1. As a result, additional royalties may be due.

Dual Accounting (Did not perform)

By "Dear Payor" letters dated September 30, 1988; July 27, 1992; February 2, 1993; and February 10, 1995 (Enclosures 2-5), MMS emphasized the requirement to perform dual accounting with notice that failure to comply with Indian lease terms and the regulations applicable to dual accounting would subject payors to enforcement actions by MMS, including civil penalties as provided by 30 CFR § 241.51.

MMS issued an Order (September 29, 1995 (Enclosure 6)) to (*Short company name*) to provide a declaration of policy on dual accounting. On your response, you stated that the company did not perform dual accounting on the Indian leases for which (*Short company name*) is a royalty payor. MMS has determined that the Jicarilla Apache Tribal lease terms require dual accounting (Section 3(c) entitled "Rental and Royalty"). As a result, additional royalties may be due.

Order to Perform

In order to comply with the regulations and lease terms, **within 90 days of receipt** of this letter, (*Short company name*) is ordered to perform the following dual accounting and major portion calculations. Please identify all Jicarilla Apache Tribal leases and time periods for which (*Short company name*) was a payor between **January 1984 and June 1995** and follow the steps below to determine the value of the production for royalty purposes:

1. Calculate the **unprocessed gas value**:

- a. The value of your gross proceeds if your gas is sold at the wellhead under an arm's-length contract (30 CFR § 206.172).
- b. The value determined if your gas is sold at the wellhead under a non-arm's-length contract or a no sale situation (30 CFR § 206.172) using **the higher of the appropriate benchmark or gross proceeds**. The arm's-length sale, by the affiliate, may be considered in determining the gross proceeds value. MMS may examine sales by affiliates in order to determine gross proceeds or the appropriate benchmark value.
- c. The value of the unprocessed gas is the greater of:
  - The value calculated in a. or b. above, as applicable; or
  - The value based on the major portion price shown on Enclosure 1.

2. Calculate the **processed gas value**:

- a. If your gas is processed under an arm's-length contract, the processed value is your gross proceeds for the combined value (determined under 30 CFR § 206.173 (1996)) of:
  - The residue gas,
  - The gas plant products, and
  - The condensate recovered downstream of the point of royalty settlement without resorting to processing,
  - Less a deduction for the reasonable actual costs incurred for transportation and/or processing. (After March 1, 1988, allowances can only be claimed if appropriate allowance forms have been previously filed with MMS.)
- b. If your gas is processed under a non-arm's-length contract, the processed value is the combined value (determined under 30 CFR § 206.173) for:
  - The residue gas,
  - The gas plant products, and
  - The condensate recovered downstream of the point of royalty settlement without resorting to processing,

- Less a deduction for the reasonable actual costs incurred for transportation and/or processing. (After March 1, 1988, allowances can only be claimed if appropriate allowance forms have been previously filed with MMS.)
- (The arm's-length sale, by the affiliate, may be considered in determining the gross proceeds value. MMS may examine sales by affiliates in order to determine gross proceeds or the appropriate benchmark value.)

If (*Short company name*) is unable to obtain the necessary information to perform dual accounting as required by the lease terms, (*Short company name*) is directed to apply the theoretical dual accounting as explained in the MMS's "Dear Payor" letter dated July 27, 1992 (Enclosure 3). MMS has provided a worksheet for both actual and theoretical dual accounting calculations and a diskette (Enclosure 7) with a Microsoft Excel worksheet in order to assist (*Short company name*) in completing dual accounting calculations. An example of the dual accounting calculations is shown in Enclosure 8. If needed, MMS can provide assistance in completing these calculations.

- c. The value of the processed gas is the greater of: the combined value of the processed gas calculated in a or b above, as applicable, or the combined value of:
    - The residue gas using the major portion price in Enclosure 1,
    - The gas plant products using the Mt. Belvieu, Texas, average spot price as shown in Enclosure 9 as the comparable contract price,
    - The value of the condensate as determined under 30 CFR § 206.52,
    - Less a deduction for the reasonable actual costs incurred for transportation and/or processing. (After March 1, 1988, allowances can only be claimed if an appropriate allowance form has been previously filed with MMS.)
3. To comply with the dual accounting requirement, the value for royalty purposes is the greater of:
    - The unprocessed gas value (determined in Step No. 1),
    - The processed gas value (determined in Step No. 2), or
    - Your gross proceeds.
  4. To determine the royalty due, compare the greater value in Step No. 3 above to the values (*Short company name*) reported to MMS on the Report of Sales and Royalty Remittance (Form MMS-2014) and pay any additional royalty amount due. Please document all such redeterminations in a format similar to those shown in Enclosure 7. Please identify and clearly document with copies of contracts or lease settlement statements, any differences you feel are not valid such as a major portion price that is greater than the maximum lawful price you received under an arm's-length contract.

## Payment Instructions

Please be aware of the following when paying the additional royalties pertaining to major portion and dual accounting:

- Your payments should be made in accordance with the regulations at 30 CFR § 218.51 (1997), and accompanied by an appropriately completed green Form MMS-2014 (Enclosure 10). You will be in compliance with this Order only if your payment and a copy of a properly completed green Form MMS-2014 is mailed to:

Jicarilla Apache Tribe  
P.O. Box 2053  
Albuquerque, New Mexico 87103

- The completed original green Form MMS-2014 and a copy of your payment should be mailed to:

Minerals Management Service  
Royalty Valuation Division, MS-3152  
P.O. Box 5810  
Denver, Colorado 80127-5810

- If you have questions on the completion of the Form MMS-2014, please contact your Reports Branch representative at (800) 525-0309 or (303) 231-3288. If you are not currently a royalty payor to MMS please contact Joseph Cornellisson at (303) 275-7239 for further instructions.
- You must use adjustment reason code 49 when you report your additional royalties on Form MMS-2014. This adjustment reason code must be used for both the reversal line and the re-entry line.
- Appropriate late payment charges pursuant to 30 CFR § 218.102 (1997) will be computed and billed to (*Short company name*) upon receipt of payment of any additional royalties due.

All documentation supporting your compliance with this Order should be retained until MMS completes its follow-up compliance testing. Section 109 of the Federal Oil and Gas Royalty Management Act of 1982 (FOGRMA), promulgated in 30 CFR § 241.51, authorizes MMS to assess civil penalties for failure or refusal to comply with the requirements of FOGRMA or any statute, regulation, rule, order, lease, or permit. Consequently, your failure to comply with the terms of this Order may be considered a violation pursuant to 30 CFR § 241.51 and could subject you to appropriate penalties as provided therein. Furthermore, failure to comply can also result in lease cancellation as provided for in 30 CFR § 241.20 (b) (1996) and 25 CFR § 211.22 (1996). The regulation at 30 CFR § 241.20 (b) states:

Failure by the lessee, operator, revenue payor, or other authorized person, or party

to complete the necessary remedial action within the time and in the manner prescribed by the notice may subject the lease to cancellation proceedings pursuant to . . . or provisions of 25 CFR for Indian leases.

The regulation at 25 CFR § 211.22 states:

Failure of the lessee to comply with any provision of the lease, of the operating regulations, of the regulations in this part, order of the superintendent or his representative, or of the orders of the supervisor or his representative, shall subject the lease to cancellation by the Secretary of the Interior or the lessee to a penalty of not more than \$500 per day for each and every day the terms of the lease, the regulations, or such orders are violated; or to both such penalty and cancellation.

### Appeal Rights

You have the right to appeal in accordance with the provisions of 30 CFR § 290 (1996). A copy of the Appeals Procedures and Bonding Requirements is attached (Enclosure 11).

In accordance with the provisions of 30 CFR § 243.2 (1996), compliance with this Order will be suspended by reason of an appeal having been taken.

If you received a previous Order to perform dual accounting on Jicarilla leases, this Order modifies the previous Order regarding the prices used in the dual accounting calculations and/or the time period involved. However, if you have previously appealed the requirement of dual accounting, you cannot appeal the issue of dual accounting again to MMS.

If you have any comments or questions concerning this request, contact Joseph Cornellison at (303) 275-7239.

Sincerely,

Deborah Gibbs Tschudy  
Chief, Royalty Valuation Division

Dear Name

In carrying out the trust responsibility of the United States in the administration of Indian oil and gas leases, the Minerals Management Service (MMS) has long recognized the primacy of the lease terms. As a royalty payor on Jicarilla Apache Indian Tribe (Jicarill Apache) leases, you are obligated to comply with Section (c) **Rental and royalty**, of the Indian lease terms, which states, in part:

During the period of supervision, "value" for the purposes hereof may, in the discretion of the Secretary, be calculated on the basis of the highest price paid or offered (whether calculated on the basis of short or actual volume) at the time of production for the major portion of the oil of the same gravity, and gas, and/or natural gasoline, and/or all other hydrocarbon substances produced and sold from the field where the leased lands are situated, and the actual volume of the marketable product less the content of foreign substances as determined by the oil and gas supervisor.

This requirement, commonly called major portion analyses, is also embodied in the oil and gas valuation regulations found at 30 CFR 206 (1987) and in the amended valuation regulations at 30 CFR §§ 206.152 and 206.153 (1995). Title 25 CFR 211 (Indian tribal) and 212 (Indian allotted) (1987) also recognize this requirement.

MMS has performed major portion analyses for natural gas production from Jicarilla Apache leases for the period **January 1984 through December 1995**. We used NGPA priced as a major portion price.

We used gas sales data reported on the Report of Sales and Royalty Remittance (Form MMS-

2014) to identify the major portion value for all gas sold in the western portion of the Jicarilla Apache Indian Reservation (Reservation) by production month. Enclosure 1 provides a list of NGPA prices by NGPA category Enclosure 2 provides a list of your accounting identification (AID) numbers for the Reservation. If you are not currently responsible for payment of royalties for the lease numbers in Enclosure 2, please identify the responsible party and the date the lease(s) were assigned to the other company.

Please compare these major portion values to the values you reported to MMS on Form MMS-2014. Please identify and document with copies of contracts or lease settlement statements, any differences you feel are not valid such as a major portion price that is greater than the maximum lawful price you received under an arm's-length contract. You must pay additional royalties for those gas sales that are less than the major portion value. Please be aware of the following when paying the additional royalties:

- Follow the procedures outlined in 30 CFR § 218.51 (1996).
- If you are not currently a royalty payor to MMS or if you have questions on the completion of the Form MMS-2014, please contact your Reports Branch representative at (303) 231-3287.
- **You must use adjustment reason code 49 when you report your additional royalties on Form MMS-2014.** This adjustment reason code must be used for both the reversal line and the re-entry line.
- Late payment charges under 30 CFR § 218.102 (1996) will be computed and billed to you upon receipt of payment of the additional royalties due.

MMS will compare these major portion values to your Form MMS-2014 information approximately 60 days from the date of this letter. We will send you an official order to pay additional royalties for those instances where your royalty value is still less than these major portion values.

If you have any comments or questions concerning this request or if you need assistance to compare your Form MMS-2014 information to the major portion values, you may write to:

Chief, Royalty Valuation Division  
Minerals Management Service  
P.O. Box 25165, Mail Stop 3152  
Denver, Colorado 80225-0165

If you have immediate questions, please contact Mr. Jim Cummings at (303) 275-7251.

Sincerely,

Deborah Gibbs Tschudy  
Chief, Royalty Valuation Division
