General Comment

Raising taxes...really? Like the 12.5% PER TON of coal exported you get now is not enough?! Lets change the rule so that a company providing energy and jobs to Montana citizens will be taxed MORE on coal, even when that company isn't profitable on those tons. Make that company have to lay off employees and reduce money already spent in taxes and goods and services in the state of MT. Makes no logical sense...at all.

Tax rules should not be flexible. PERIOD.
