RE: (RIN) 1012-AA13, Consolidated Federal Oil and Gas and Federal and Indian Coal Valuation Reform

Haven't we already done too much to poison this planet, land, water, air, and climate? It's long past time for us to fight these activities, both our own and anything we do to actually promote them in other countries! Giving publicly owned coal to private companies is incompatible with President Obama's stated commitment to stop runaway climate change. The people of this country own that coal, and we should have a voice in its distribution and use. Many of us feel you MUST end the federal coal leasing program and do everything in your power to keep publicly owned coal in the ground.

Sincerely,

RE: (RIN) 1012-AA13, Consolidated Federal Oil and Gas and Federal and Indian Coal Valuation Reform

Giving publicly owned coal to private companies is incompatible with President Obama's stated commitment to stop runaway climate change. You must end the federal coal leasing program and do everything in your power to keep publicly owned coal in the ground.

Sincerely,

Sigrid Langhaeuser  
Christoph-von-Schmid-Str. 22

RE: (RIN) 1012-AA13, Consolidated Federal Oil and Gas and Federal and Indian Coal Valuation Reform

Giving publicly owned coal to private companies is incompatible with President Obama's stated commitment to stop runaway climate change. You must end the federal coal leasing program and do everything in your power to keep publicly owned coal in the ground.

Sincerely,

Cheryl Fischer

RE: (RIN) 1012-AA13, Consolidated Federal Oil and Gas and Federal and Indian Coal Valuation Reform

Look, we need to get off our addiction to fossil fuels. These companies have the money and the means to find alternatives, but if you keep placating them, they never will. Giving publicly owned coal to private companies is incompatible with President Obama's stated commitment to stop runaway climate change. You must end the federal coal leasing program and do everything in your power to keep publicly owned coal in the ground.

RE: (RIN) 1012-AA13, Consolidated Federal Oil and Gas and Federal and Indian Coal Valuation Reform

Giving publicly owned coal to private companies is incompatible with President Obama's stated commitment to stop runaway climate change. You must end the federal coal leasing program and do everything in your power to keep publicly owned coal in the ground.

Sincerely,

Sharon Garlena  
5238 Earles Court  
Frederick, MD 21703-2819

RE: (RIN) 1012-AA13, Consolidated Federal Oil and Gas and Federal and Indian Coal Valuation Reform

Lets leave the dirty coal in the ground and spend our efforts on sustainable energy. At some point in the future, there may be a method developed to extract the energy from coal without the negative environmental impact. please be proactive about this rather than take the "easy" out! Giving publicly owned coal to private companies is incompatible with President Obama's stated commitment to stop runaway climate change. You must end the federal coal leasing program and do everything in your power to keep publicly owned coal in the ground.

RE: (RIN) 1012-AA13, Consolidated Federal Oil and Gas and Federal and Indian Coal Valuation Reform

Giving publicly owned coal to private companies is incompatible with President Obama's stated commitment to stop runaway climate change. You must end the federal coal leasing program and do everything in your power to keep publicly owned coal in the ground.

Sincerely,

Stephen Davie  
1131 Burgoyne Avenue

RE: (RIN) 1012-AA13, Consolidated Federal Oil and Gas and Federal and Indian Coal Valuation Reform

First off, giving publicly owned coal to private companies is incompatible with President Obama's stated commitment to stop runaway climate change. Secondly, giving it to them freely or at below market rates does an injustice to every American tax payer. You must end the federal coal leasing program and do everything in your power to keep publicly owned coal in the ground. Thank you for your attention to this matter.

Sincerely,

Mark Butler

RE: (RIN) 1012-AA13, Consolidated Federal Oil and Gas and Federal and Indian Coal Valuation Reform

Giving publicly owned coal to private companies is incompatible with President Obama's stated commitment to stop runaway climate change. You must end the federal coal leasing program and do everything in your power to keep publicly owned coal in the ground. We must change to new cleaner less environmentally destructive energy programs. Cheap coal will prevent development of these programs. A carbon tax wudv put us on the right track, but that was scuttled by short sided profit only interests. Don't make the same mistake promoting the worst form of pollution (burning coal).

Sincerely,

G Zientara

RE: (RIN) 1012-AA13, Consolidated Federal Oil and Gas and Federal and Indian Coal Valuation Reform

Giving publicly owned coal to private companies is incompatible with President Obama's stated commitment to stop runaway climate change. You must end the federal coal leasing program and do everything in your power to keep publicly owned coal in the ground.

Sincerely,

Mary Elbrecht

RE: (RIN) 1012-AA13, Consolidated Federal Oil and Gas and Federal and Indian Coal Valuation Reform

There are plumes of methane bubbles 1KM WIDE coming up from the arctic sea floor. Giving publicly owned coal to private companies is incompatible with President Obama's stated commitment to stop runaway climate change. You must end the federal coal leasing program and do everything in your power to keep publicly owned coal in the ground.

Sincerely,

Loren Robert Carle  
West Street, Princeton, ME

RE: (RIN) 1012-AA13, Consolidated Federal Oil and Gas and Federal and Indian Coal Valuation Reform

Giving publicly owned coal to private companies is incompatible with President Obama's stated commitment to stop runaway climate change. You must end the federal coal leasing program and do everything in your power to keep publicly owned coal in the ground. Instead of dumping more money into unsustainable dirty energy and putting corporate interests ahead of the public, investments need to be made in the US to make solar options as viable in all 50 states. As they are in Hawaii. Hawaii is a sun-drenched island, but with more efficient solar technology states that aren't sunny 24-7 could reach the same level of clean energy utilization.

Sincerely,

Ashley B

RE: (RIN) 1012-AA13, Consolidated Federal Oil and Gas and Federal and Indian Coal Valuation Reform

Revenue from the federal coal leasing program is dwarfed by the costs incurred from the resulting climate change. This connection is real and the conservative thing to do is embrace prevention rather than the far more expensive consequences. Giving publicly owned coal to private companies is also incompatible with President Obama's stated commitment to stop runaway climate change. You must end the federal coal leasing program and do everything in your power to keep publicly owned coal in the ground. Our future generations are depending on us to do the right thing NOW.

RE: (RIN) 1012-AA13, Consolidated Federal Oil and Gas and Federal and Indian Coal Valuation Reform

Giving publicly owned coal to private companies is incompatible with President Obama's stated commitment to stop runaway climate change. You must end the federal coal leasing program and do everything in your power to keep publicly owned coal in the ground.

Sincerely,

Elliott G Swinton

RE: (RIN) 1012-AA13, Consolidated Federal Oil and Gas and Federal and Indian Coal Valuation Reform

Giving publicly owned coal to private companies is incompatible with President Obama's stated commitment to stop runaway climate change. You must end the federal coal leasing program and do everything in your power to keep publicly owned coal in the ground.

Sincerely,

Teresa Herbst  
3623 6th Ave. W. Palmetto FL

RE: (RIN) 1012-AA13, Consolidated Federal Oil and Gas and Federal and Indian Coal Valuation Reform

Giving publicly owned coal to private companies is incompatible with President Obama's stated commitment to stop runaway climate change. You must end the federal coal leasing program and do everything in your power to keep publicly owned coal in the ground. This is a giveaway to the fossil fuels industry and a betrayal of the public trust.

Sincerely,

Laura Horowitz

RE: (RIN) 1012-AA13, Consolidated Federal Oil and Gas and Federal and Indian Coal Valuation Reform

Giving publicly owned coal to private companies is incompatible with President Obama's stated commitment to stop runaway climate change. You must end the federal coal leasing program and do everything in your power to keep publicly owned coal in the ground. We are almost getting to the borderline of myths to try to sustain coal extraction. Talk persists of breakthroughs in "clean coal," but for decades now, there's been no convincing evidence of any real progress. In the state where I live (Virginia), coal tax credits have authored massive taxpayer subsidies to that industry. Yet while some \$600 MILLION has been paid out over the past 20 years, actual employment in that industry has dropped some 75 percent within the Commonwealth. Correlating with that, substantially LESS coal is now being mined. Is this stage of a long-declining business cycle for coal worthy of government-sponsored giveaways?! Surely we can find better and HEALTHIER ways to deploy government and taxpayer support for energy sources!

Sincerely,

Dick Brown

RE: (RIN) 1012-AA13, Consolidated Federal Oil and Gas and Federal and Indian Coal Valuation Reform

Giving publicly owned coal to private companies is incompatible with President Obama's stated commitment to stop runaway climate change. You must end the federal coal leasing program and do everything in your power to keep publicly owned coal in the ground.

Sincerely,

Sherrill Halbe

RE: (RIN) 1012-AA13, Consolidated Federal Oil and Gas and Federal and Indian Coal Valuation Reform

Giving publicly owned coal to private companies is incompatible with stopping climate change, since coal is a fossil fuel, and contributes greenhouse gases such as carbon dioxide to the atmosphere. Please end the federal coal leasing program and do everything in your power to keep publicly owned coal in the ground, and focus on promoting and developing clean energy. Thank you.

Sincerely,

Alicia Matheny

RE: (RIN) 1012-AA13, Consolidated Federal Oil and Gas and Federal and Indian Coal Valuation Reform

The owners and CEOs of extractive energy industries like to talk a big game about how crucial capitalism and free enterprise are to their activities and the American way of life. Their talk turns to hot exhaust when they continue to lobby for, and receive, government subsidies to keep their businesses afloat. It's time to let such industries sink or swim on their own merits (or lack thereof). Then green energy options would be much more economically viable. Of course, this is exactly what the extractive industries know and are fighting against. Show them they need to live by the "sword" they're always swinging at the rest of us. Giving publicly owned coal to private companies is incompatible with President Obama's stated commitment to stop runaway climate change. You must end the federal coal leasing program and do everything in your power to keep publicly owned coal in the ground.

Sincerely,

Michael Spence

RE: (RIN) 1012-AA13, Consolidated Federal Oil and Gas and Federal and Indian Coal Valuation Reform

Giving publicly owned coal to private companies is incompatible with President Obama's stated commitment to stop runaway climate change. I also question why we are giving away taxpayer-owned resources to private multinational companies. It seems far past time to update our federal coal leasing program. We also need to start taking serious steps to avoid incinerating ourselves in the rapidly approaching future.

RE: (RIN) 1012-AA13, Consolidated Federal Oil and Gas and Federal and Indian Coal Valuation Reform

The Federal Government seems embarrassed any time it has a valuable asset and unloads it for pennies on the dollar. Future generations will suffer. It's time to start charging fair market value and dry up demand that way, if no other. In the case of coal to Asia, China has refused to throttle its economic expansion for the sake of the environment. This is one world, and the least we can do is to make sure they are not maintaining their giant carbon footprint with our coal. If you won't shut this program down, at least make it unprofitable to the consumers, not to the US taxpayers. Giving publicly owned coal to private companies is incompatible with President Obama's stated commitment to stop runaway climate change. You must end the federal coal leasing program and do everything in your power to keep publicly owned coal in the ground.

Sincerely,

John Bogart

RE: (RIN) 1012-AA13, Consolidated Federal Oil and Gas and Federal and Indian Coal Valuation Reform

Giving publicly owned coal to private companies is incompatible with President Obama's stated commitment to stop runaway climate change. It is doubly offensive since private companies who sell this coal overseas are making windfall profits of money that should go to Treasury and help pay for education and health badly needed at home!! This in turn enables fossil fuel magnates to continue undermining our democracy through paying for the political campaigns of the people in Congress who have kept us dependent on fossil fuel energy! These sales are very clearly theft of public property and cannot be allowed to continue! You must end the federal coal leasing program and do everything in your power to keep publicly owned coal in the ground. Any of us who have children and grandchildren request your ethical behavior in their names. Devastating climate change will ruin their lives and you are in a position of public responsibility and trust that you must not betray! Thank you.

RE: (RIN) 1012-AA13, Consolidated Federal Oil and Gas and Federal and Indian Coal Valuation Reform

Giving publicly owned coal to private companies is incompatible with President Obama's stated commitment to stop runaway climate change. You must end the federal coal leasing program and do everything in your power to keep publicly owned coal in the ground.

Sincerely,

Paul Paul V. Moloney (USAR Moloney)

RE: (RIN) 1012-AA13, Consolidated Federal Oil and Gas and Federal and Indian Coal Valuation Reform

Giving publicly owned coal to private companies is incompatible with President Obama's stated commitment to stop runaway climate change. You must end the federal coal leasing program and do everything in your power to keep publicly owned coal in the ground.

Sincerely,

Marianne Eileen Herzog-Bazin

RE: (RIN) 1012-AA13, Consolidated Federal Oil and Gas and Federal and Indian Coal Valuation Reform

Giving publicly owned coal to private companies is incompatible with President Obama's stated commitment to stop runaway climate change. You must end the federal coal leasing program and do everything in your power to keep publicly owned coal in the ground. You cannot lease coal. This is a misnomer. We sold expensive coal from public lands for cheap. The coal industry must like that. Besides the effect on the environment, the buyers of this coal refuse to pay taxes and some the community pays twice. If the coal companies want this coal, our coal. Pay full price and protect the environment.

RE: (RIN) 1012-AA13, Consolidated Federal Oil and Gas and Federal and Indian Coal Valuation Reform

Giving publicly owned coal to private companies is incompatible with President Obama's stated commitment to stop runaway climate change. For the sake of our children & grandchildren coal mining must end. It not only ruins the surrounding landscape, but also leaves lasting damage in air and water pollution. If the leases continue they must be priced to pay for the environmental damage the mining operations and use of the coal cause. That cost should discourage further coal removal. You must END the federal coal leasing program and do everything in your power to keep publicly owned coal in the ground.

RE: (RIN) 1012-AA13, Consolidated Federal Oil and Gas and Federal and Indian Coal Valuation Reform

Giving publicly owned coal to private companies is incompatible with President Obama's stated commitment to stop runaway climate change. You must end the federal coal leasing program and do everything in your power to keep publicly owned coal in the ground.

Sincerely,

Claudia Creason

RE: (RIN) 1012-AA13, Consolidated Federal Oil and Gas and Federal and Indian Coal Valuation Reform

I'm in Florida. We can supply solar, wind, and wave alternative energy. We can help with desalinization of water. Just because we do not have the leadership to do any of this does NOT mean we can't do it. Really sick of the obvious being overlooked AND this state on poverty level wages and education. WE HAVE Military installations, NASA and THEME PARK genius here. THERE IS NO EXCUSE for this country being stupid ALL THE TIME just for the benefit of a few greedy people. SOME OF THE TIME- THE SYSTEM SHOULD WORK Giving publicly owned coal to private companies is incompatible with President Obama's stated commitment to stop runaway climate change. You must end the federal coal leasing program and do everything in your power to keep publicly owned coal in the ground.

RE: (RIN) 1012-AA13, Consolidated Federal Oil and Gas and Federal and Indian Coal Valuation Reform

Giving publicly owned coal to private companies is incompatible with President Obama's stated commitment to stop runaway climate change. You must end the federal coal leasing program and do everything in your power to keep publicly owned coal in the ground. We should be weaning our energy use away from coal and towards renewable energy.

Sincerely,

Michael S. O'Malley

RE: (RIN) 1012-AA13, Consolidated Federal Oil and Gas and Federal and Indian Coal Valuation Reform

Giving publicly owned coal to private companies is incompatible with President Obama's stated commitment to stop runaway climate change. You must end the federal coal leasing program and do everything in your power to keep publicly owned coal in the ground.

Sincerely,

Antti Honkasalo

RE: (RIN) 1012-AA13, Consolidated Federal Oil and Gas and Federal and Indian Coal Valuation Reform

Processing coal is spewing mercury into our air, which your children have to breathe, and into our oceans which is causing fish to be contaminated as well as the oceans to become too acidic. We all have to live on this planet for now. Let's make it habitable for all of our children and grandchildren. Giving publicly owned coal to private companies is incompatible with President Obama's stated commitment to stop runaway climate change. You must end the federal coal leasing program and do everything in your power to keep publicly owned coal in the ground.

RE: (RIN) 1012-AA13, Consolidated Federal Oil and Gas and Federal and Indian Coal Valuation Reform

Please put an end the federal coal leasing program and do everything in your power to keep publicly owned coal in the ground. Giving publicly owned coal to private companies is incompatible with President Obama's stated commitment to stop runaway climate change. We need to support alternative, non-carbon-based, environmentally safe energy sources and stop providing coal to energy producers.

Sincerely,

Martha Iancu

Giving publicly owned coal to private companies is incompatible with President Obama's stated commitment to stop runaway climate change. You must end the federal coal leasing program and do everything in your power to keep publicly owned coal in the ground. In addition, this is a poorly designed "government works program" that the right, the ones supporting the federal coal leasing program, say they are against! The only ones with DECENT jobs are the CEOs! If the right wants less government they have to be willing to get rid of their own pork barrel spending and make sure things cost what the market will bear. This should NOT be a government subsidy!

RE: (RIN) 1012-AA13, Consolidated Federal Oil and Gas and Federal and Indian Coal Valuation Reform

The 1% have depended upon access to the American public's reserves, preserves and First People's lands for cheap sources of materials upon which to build their wealth, power and unchallenged access to the federal government to ensure continued streams of revenue at the vast majority's expense and loss. THE CONTINUED EXPLOITATION OF THE PUBLIC TO SERVE THE PRIVATE INTERESTS OF THE FEW IS A SHAMELESS VALIDATION OF PRIVILEGE BY THE GOVERNMENT AND UNDEMOCRATIC. Giving publicly owned coal to private companies is incompatible with President Obama's stated commitment to stop runaway climate change. You must end the federal coal leasing program and do everything in your power to keep publicly owned coal in the ground.

Sincerely,

RE: (RIN) 1012-AA13, Consolidated Federal Oil and Gas and Federal and Indian Coal Valuation Reform

If all of the fossil fuel reserves currently in the ground are developed, it will likely produce a truly devastating level of global warming, with huge costs to the American public and the US government. In light of that reality, giving publicly owned coal to private companies is horrible policy and at odds with President Obama's stated commitment to stop runaway climate change. You must end the federal coal leasing program and do everything in your power to keep publicly owned coal in the ground.

Sincerely,

Peter Kuhlman

RE: (RIN) 1012-AA13, Consolidated Federal Oil and Gas and Federal and Indian Coal Valuation Reform

Giving publicly owned coal to private companies is incompatible with President Obama's stated commitment to stop runaway climate change. You must end the federal coal leasing program and do everything in your power to keep publicly owned coal in the ground.

Sincerely,

L White

RE: (RIN) 1012-AA13, Consolidated Federal Oil and Gas and Federal and Indian Coal Valuation Reform

Giving publicly owned coal to private companies is incompatible with President Obama's stated commitment to stop runaway climate change. You must end the federal coal leasing program and do everything in your power to keep publicly owned coal in the ground.

Sincerely,

Kristin Walden
