Giving publicly owned coal to private companies is incompatible with President Obama's stated commitment to stop runaway climate change. You must end the federal coal leasing program and do everything in your power to keep publicly owned coal in the ground. Or at least price access to coal reserves on public land higher than the most expensive renewable sources of energy currently available. If this coal is going to be extracted, the revenue to the US Govt should at least counter the cost to the global environment.

Sincerely,

Michael Pardee

RE: (RIN) 1012-AA13, Consolidated Federal Oil and Gas and Federal and Indian Coal Valuation Reform

I live in southwest Virginia and know the economic hardships that decreased coal use has caused. However, I am also a mother that wants to leave cleaner air for my children and I don't believe in maintaining the status quo just because that's the way it's always been. Coal is an out-dated energy source, just as 8 track tapes are an outdated source of music. We desperately need to invest in new energy sources and educate the people of the coal fields for new technologies and job skills while accepting that coal will not sustain this region any longer.. Giving publicly owned coal to private companies is incompatible with President Obama's stated commitment to stop runaway climate change. You must end the federal coal leasing program and do everything in your power to keep publicly owned coal in the ground.

RE: (RIN) 1012-AA13, Consolidated Federal Oil and Gas and Federal and Indian Coal Valuation Reform

Citizen rights are being increasingly overturned in this country. Our Founding Fathers must be whirling in their graves. Public ownership means the coal belongs to all citizens, not to greedy self-serving organizations of plunder. Giving publicly owned coal to private companies is incompatible with President Obama's stated commitment to stop runaway climate change. You must end the federal coal leasing program and do everything in your power to keep publicly owned coal in the ground.

Sincerely,

Carolyn Foote Edelmann

RE: (RIN) 1012-AA13, Consolidated Federal Oil and Gas and Federal and Indian Coal Valuation Reform

PRIVATIZATION IS OWNERSHIP!!!! The United States of America is supposed to be a DEMOCRACY! No kings, no queens, no royalty, although through corruption it's certainly starting to look like we're headed that way! ANY politician, whether federal, state, or local, that is pushing for the privatization of public lands needs to be shown the exit door to any kind of government office! In fact, they should be shown the door out of the United States of America! Giving publicly owned coal to private companies is incompatible with President Obama's stated commitment to stop runaway climate change. You must end the federal coal leasing program and do everything in your power to keep publicly owned coal in the ground.

RE: (RIN) 1012-AA13, Consolidated Federal Oil and Gas and Federal and Indian Coal Valuation Reform

Giving publicly owned coal to private companies is incompatible with President Obama's stated commitment to stop runaway climate change. According to a shocking new study published in the journal Nature, we must leave at least 90 percent of remaining U.S. coal reserves in the ground to have just a 50-50 chance of stopping climate change. the coal leasing program isn't just a major contributor to climate change – it is also a ripoff for taxpayers, with an estimated billion dollars per year less in revenue than it should have. You must end the federal coal leasing program and do everything in your power to keep publicly owned coal in the ground.

RE: (RIN) 1012-AA13, Consolidated Federal Oil and Gas and Federal and Indian Coal Valuation Reform

Giving publicly owned coal to private companies is incompatible with President Obama's stated commitment to stop runaway climate change. UW's David Battisti stated the weather that decreased crop yields by 20 to 30 percent in 2009/2010 could be the *climate* in like 70 years. And Michael Jakob in Science last month suggested 90 percent of coal should stay in the ground.

RE: (RIN) 1012-AA13, Consolidated Federal Oil and Gas and Federal and Indian Coal Valuation Reform

Hello! I have asthma and chronic obstructive pulmonary disease. Polluted air seriously affects my ability to breathe and keep my airways and lungs functioning so I can have a comfortable, mildly active life. Coal is a main polluter of our air and adversely affects our planet and its climate changes. If we expect to give our grandchildren a healthy life, we owe it to them to stop burning fossil fuels, especially coal. Giving publicly owned coal to private companies is incompatible with President Obama's stated commitment to stop runaway climate change. You must end the federal coal leasing program and do everything in your power to keep publicly owned coal in the ground. This will significantly reduce our dependence on fossil fuels for energy. Thank you for seriously considering my request.

Sincerely,

Carol Gurtz

RE: (RIN) 1012-AA13, Consolidated Federal Oil and Gas and Federal and Indian Coal Valuation Reform

Giving publicly owned coal to private companies is incompatible with President Obama's stated commitment to stop runaway climate change. You must end the federal coal leasing program and do everything in your power to keep publicly owned coal from being used to produce electricity. That coal will be much more valuable for other uses in the future. We need to subsidize Geothermal power instead. Companies with coal leases should be charged by the ton for all coal removed. The charge for a ton of coal should be much higher than the rate charged for an equivalent btu of geothermal heat.

Sincerely,

Todd M. Ackley

RE: (RIN) 1012-AA13, Consolidated Federal Oil and Gas and Federal and Indian Coal Valuation Reform

What can it be that you idiots still don't understand about COAL BEING A TOXIC POLLUTANT???

I'll say it in another, simpler way for you -- BURNING COAL ANYWHERE ON THE PLANET IS BAD FOR LIVING BEINGS INCLUDING H U M A N S . Giving publicly owned coal to private companies is incompatible with President Obama's stated commitment to stop runaway climate change. You must end the federal coal leasing program and do everything in your power to keep publicly owned coal in the ground.

RE: (RIN) 1012-AA13, Consolidated Federal Oil and Gas and Federal and Indian Coal Valuation Reform

Giving publicly owned coal to private companies is unacceptable and corporations should be fined for accepting it. You must end the federal coal leasing program and do everything in your power to keep publicly owned coal in the ground. Coal and oil are fossil fuels that are FOSSILS themselves. We need to set an end date for use of oil and for coal. We are so far behind the EU nations in alternative energy, infrastructure, and actively ending polluters in their nations. We can do it too. It is time to end the power of oil companies over our government, our democracy, and the denial of climate change just because of greed.

RE: (RIN) 1012-AA13, Consolidated Federal Oil and Gas and Federal and Indian Coal Valuation Reform

Giving publicly owned coal to private companies is incompatible with President Obama's stated commitment to stop runaway climate change. You must end the federal coal leasing program and do everything in your power to keep publicly owned coal in the ground. I AM SICK OF THE FALSE ACCUSATIONS THAT PRESIDENT OBAMA IS A SOCIALIST, WHEN HE IS A CAPITALIST, OR AT LEAST TRYING TO GO IN THAT DIRECTION. THESE PEOPLE WORKING AGAINST PRESIDENT OBAMA ARE IN BEHAVIOR CLEARLY CORRUPTED SOCIALISTS WHO WANT TO PRIVATIZE THE COMMONS, WHICH IS OUR TAXPAYER OWNED COAL THAT BELONGS TO ALL OF US, AND PRIVATIZE THE PROFITS THAT THEY EXTRACT FROM OUR LAND (THIS IS PLUTOCRACY NOT CAPITALISM), BUT THEN THEY ARE BIG SOCIALISTS WHEN IT COMES TO PROVIDING THIS TAXPAYER COAL CHEAPLY TO THEIR CAMPAIGN CONTRIBUTORS. WE STRONGLY OBJECT TO SOCIALIZATION OF THE TAXPAYER OWNED COAL INTO VERY LIMITED AND PRIVATE CORPORATIONS THAT PLAN TO KEEP THE PROFITS ONLY FOR A SMALL FEW. WHY IS INTERIOR GIVING AWAY OUR RESOURCES TO HYPOCRITES WHO CLAIM TO BE ANTI-SOCIALISM WHEN ANY POLICY BENEFITS THE MAJORITY AND PRO-SOCIALISM WHEN IT BENEFITS THE COAL COMPANIES AND THEIR VERY PRIVATE PROFITS GOING TO A SMALL FEW AND STEALING FROM THE TAXPAYERS' COAL.
