General Comment

Hello,

I am currently employed by a coal mining company. I strongly oppose this proposed rule. Below are the reasons that I oppose:

1. Creates significant uncertainty;
2. Gives the Secretary of the Interior too much power;
3. Punishes miners that sell to small industrial customers and export coal, and hurts coal cooperatives and captive mine power plants
4. Discourages federal lands energy production
5. Needs more study and review

Please review the reasons for my opposition and consider them when making a decision. Thanks for your time!
