

# Overlapping Agreements

# Objectives

In this course we are going to:

- Explain what an Overlap is and identify the main components.
- Discuss the new Overlap policies released by BLM and what that means to the Future of Overlaps.
- Complete an Overlap that has both 2014 and OGOR reporting.
- Complete an Overlap under the new ND BLM Policy, including:
  - Mapping the CA Overlap
  - Completing an ONRR-2014 form for the CA Overlap

# Agreement Overlaps

**An Agreement Overlap is when land of any type (Federal, Indian, Fee or State) is in more than one agreement and the same formation and is overlapping each other.**

**Total Overlap – CA is completely overlapping an Agreement(s).**

- CA completely overlaps ONE Agreement - CA becomes silent and all Reporting, OGOR's and 2014's, are submitted on the agreement that CA is Overlapping (RARE).
- If the total overlap consists of MORE THAN ONE Agreement the CA is NOT silent and OGOR reporting stays with the New CA, the 2014's are submitted on the agreements the CA overlaps.

**Partial Overlap – CA is partially within the Agreement**

- OGORs: Each Agreement will report it's own Production.
- ONRR-2014: CA production allocated to the overlapped portion of the CA is then reallocated to the Overlapped Agreement in accordance with that Agreements allocation schedule.

# The Future of Overlaps

Issued July 3, 2018

BLM and BIA have implemented a new policy changing how CA overlaps are done (*BLM Permanent Instruction Memorandum No. 2018-012*). This policy was issued July 3, 2018 and applies to any CA that has an **effective date** after the IM's issue date. This only applies to CA's that overlap an existing CA. This Instruction Memorandum can be found on BLM's website.

- BLM/BIA will approve a new CA when the CA overlaps an existing CA(s) **ONLY** when the new CA will allocate production and associated royalties from the new CA directly to the leases within the boundary of the new CA.
- BLM/BIA will continue to follow the existing policy when processing a new CA that would partially overlap an existing PA for the same formation within an approved Federal or Indian exploratory oil and gas unit.

# What does this mean?

When approving a new CA that overlap's an existing CA, BLM/BIA will no longer allocate production and associated royalties from the new CA to the existing underlying CA(s) that the new CA overlap's.

Each new CA will be a **“Stand-Alone”** agreement and will not change the allocation of production or associated royalties for the underlying CA.

There will be no reference to an Overlap in the letter or on the SRP. Royalty reporting is based on the lease to agreement allocation for all production. 2014's will be submitted with both the lease and agreement numbers.

# North Dakota IM

North Dakota issued a Supplement IM to the new BLM/BIA policy on July 27, 2018; *PIM 2018-004*.

This IM applies to any CA **approved after** July 27, 2018. This Instruction Memorandum can be found on BLM's website.

- North Dakota will continue to allocate to overlapped Base CA's that are within the boundary of the new CA.
- When a new CA overlaps an existing overlapping CA the agencies will **NO LONGER** further allocate out to existing overlapping CA's that are not within the boundary of any Base CA.

# Oil and Gas Reporting

- **OGOR** – All production is reported on the source agreement.
- **ONRR-2014** – CA production allocated to the portion overlapping another agreement is then reallocated to that overlapped agreement in accordance with the overlapped agreements allocation schedule.
- **New Overlap Policy** - issued July 3, 2018 and applies to any CA with an EFFECTIVE date after the issue date.
- **ND Overlap Policy** - issued July 27, 2018 and applies to any CA with an APPROVAL date after the issue date.
