GOMESA provides that the four Gulf coastal states (Alabama, Louisiana, Mississippi and Texas) and their eligible coastal political subdivisions receive 37.5 percent of the oil and gas qualified leasing revenues from certain Outer Continental Shelf areas.

Included in the state disbursements is \$3.59 million disbursed directly to individual counties in eight states from geothermal energy production. This list also includes 8(g) payments to states.

The FY 2013 disbursements to states exclude approximately \$105 million withheld from states and counties because of sequestration. The Mineral Leasing Act (MLA) payments withheld in 2013 due to sequestration were disbursed to states in October 2013.
