TO ALL OFFSHORE OPERATORS

Dear Operator:

Several weeks ago, you received a list of Facility Measurement Point (FMP) numbers assigned to flash gas measurement locations in the Gulf of Mexico OCS Region (GOMR). We received additional information concerning these FMP numbers after the list was published. Please substitute the enclosed corrected list for the one previously sent. Changes made include the addition of:

<u>SYSTEM</u>	<u>LIQUID</u> <u>NAME</u>	<u>FMP #</u>	<u>DESCRIPTION</u>
00.6	MATAGORDA ISLAND SEP. FAC	3042 TJ01	ALL LEASES
and the <u>deletion</u> of:			
28.0	BLUE WATER P/L SYSTEM	3017109BW00	LEASES WHICH DO NOT GO THROUGH PECAN ISL. NORTH P/L SYSTEM
28.0	BLUE WATER P/L SYSTEM	3017113PI00	LEASES WHICH GO THROUGH PECAN ISL. NORTH P/L (12"-16" TENN GAS)

To reiterate, the attached FMP's are royalty-determination points. If you are being allocated flash gas from one of these locations, the appropriate FMP number should be reported on the OGOR-B form. Use disposition code "01" (Direct Sales - Subject to Royalty) along with the allocated volume and BTU from the oil/condensate pipeline statement.

If you have any questions, please contact Mr. Kirk Kirchoff at 800-548-3094 or 303-969-6246.

Sincerely,
Original Signed By
MICHAEL A. MILLER
